

Prevent equipment issues before they occur.

ZeaFarer simplifies superyacht maintenance with one system built for captains and crew. No heavy lifting required.

Built for Captains + Crew

Designed to be easy to use. If you own a smartphone and know how to send Whatsapp messages or use social media, you'll be ready to dive in.

Establish a Digital Record

New crew or captain onboard? Records live with the vessel and provide one clear view of everything that has happened onboard to date and what is outstanding and upcoming.

Simplify Communication

Stop relying on one-offWhatsapps, emails, and conversations. Text in ship logs, record issues, and complete tasks with the click of a button.

Easy Implementation

We take responsibility for setting up your instance, so the system is ready for you to start as soon as you log in. We offer on-site quarterly training as needed for support.

Different Views for Captains + Crew

Captains can review upcoming and outstanding maintenance, take action on unresolved issues, and assign work to crew. Crew members log in and complete their assigned tasks for the day.

AI Integration

Pair ZeaFarer with whichever AI you use in your daily life to get immediate, secure support. Troubleshoot issues in real time with AI that knows your ship's equipment and history.

Stress-Free Installation

On-site onboarding in 2 days or less

Step 1:

The ZeaFarer team builds your **digital equipment library** by loading equipment makes, models, serial numbers, warranties, and manuals into our system.

Step 2:

We install a NMEA device onboard to power dashboards with **live and historical equipment performance data**, such as engine RPM, temperature, pressure, etc.

Step 3:

We train captains and crew to easily complete maintenance tasks and log issues with **optional AI troubleshooting** from their smartphones.

Step 4:

You're ready to launch! We'll be by your side with 24/7 support and quarterly onsite training to ensure total satisfaction.
